PRODUCT DESCRIPTION

The Avide LED dust- and moisture-proof fixtures for tubes represent the energy-saving versions of traditional fittings. The fixtures of different lengths replacing the tube fixtures have a built-in LED panel that guarantees energy-saving operation. In terms of the material used, the products have a break-resistant cover. Due to the IP65 protection of the fixture, it is protected from dust and moisture, thus can also be operated at places with higher exposure to dust and humidity.

The product range includes a 1 and 2 LED design, in lengths of 0.6, 1.2 and 1.5 meter lengths, with a transparent cover.

OUR IP protected fixture category includes numerous additional products. Learn more about these on the following link.
